# 6 Steps for Safe & Effective Disinfectant Use

# Step 1: Check that your product is EPA-approved

Find the EPA registration number on the product. Then, check to see if it is on EPA's list of approved disinfectants at: *epa.gov/listn* 

## **Step 2: Read the directions**

Follow the product's directions. Check "use sites" and "surface types" to see where you can use the product. Read the "precautionary statements."

#### **Step 3: Pre-clean the surface**

Make sure to wash the surface with soap and water if the directions mention pre-cleaning or if the surface is visibly dirty.

# Step 4: Follow the contact time

You can find the contact time in the directions. The surface should remain wet the whole time to ensure the product is effective.

## Step 5: Wear gloves and wash your hands

For disposable gloves, discard them after each cleaning. For reusable gloves, dedicate a pair to disinfecting COVID-19. Wash your hands after removing the gloves.

**Step 6: Lock it up** Keep lids tightly closed and store out of reach of children.
