

Quest Academy

I am nominating Quest Academy for the Pay It Forward Education Grant to use towards technology upgrades for distance learning. Quest Academy is a K-8 charter school in Las Vegas, NV. 94% of our students qualify for free or reduced breakfast and lunch. Our families, staff, and school operate on a very tight budget. This pandemic has placed a heavy financial burden on our staff and families as they must purchase and upgrade devices to support distance learning platforms. With this grant, we will be able to afford upgraded technology for our staff and students.
