

Red Apple

This is Marshan Beiley with my daughter Liliana. My daughter loves her as her kindergarten teacher. Going into 1st grade this year, Liliana still talks about her to this day. She is constantly asking to see and talk to Mrs. Beiley! During the year she just made all the children feel special. I feel that Liliana is so excited about school because of her. It's Awesome. When the pandemic hit, she stayed in touch with the kids once a week as a class, then one on one once a week through the end of the school year. Because the kids were so early in school, it was not mandatory. The kids couldn't get enough of the group chat once a week! She had a pizza party for the kids for being super improvers. She kept her promise and the class had a pizza party outside at a park with lots of sanitizer, masks, and social distancing. She did not want to break her promise to the children. If anyone deserves this grant, IT IS MRS. BEILEY!! Please help me pay her back in a great way!!
